

Awaken Memories with Music

The Music & Memory program helps reach and engage a person with dementia through the power of music. Even as memory fails, using personalized music can help improve communication, connect with loved ones, and increase quality of life.

The Long Term Care Ombudsman Cleveland Office in cooperation with the Alzheimer's Association Cleveland Area Chapter bring the Music & Memory program to nursing homes throughout Northeast Ohio.

We are currently seeking donations of new or gently used iPods, iTunes gift cards and accessories such as headsets, chargers and cables. Now through April 30, 2015.

Donations can be dropped off or mailed to any of the following locations:
